Dear Barry;

You, and all our boating friends know how much we are enjoying this beautiful new canvas. It's not surprising to me that friends and strangers comment on the quality and workmanship. The colour and openness certainly enhance the old "Prowler"

We are very happy to sit under the canvas enjoying our back deck and the protection it affords.

Bert and I both thank you for doing such a professional job and would recommend your work to anyone.

Sincerely

Bert
